To: All Provost Pipeline Shippers and Producers

Re: MSO Stream Receipts are No Longer Accepted on the Provost Pipeline

Please be advised that effective immediately the Provost Pipeline will no longer accept nominations for the segregated transportation of light sour crude. Service will continue for the Bow River crude stream only.

This action is required as a result of a continued drop in the volumes being delivered to the pipeline. The reduced flow rate has resulted in laminar flow and, as a result, the integrity of light sour batches cannot be maintained.

If you have any questions, please don't hesitate to contact the undersigned at 403.206.4084.

Sincerely,

Gibson Energy Partnership

By its Managing Partner, Gibson Energy ULC
