

PRESS RELEASE - GIBSON ENERGY ULC
JOHNSTONE TANK TRUCKING LTD. ACQUISITION

Calgary, Alberta, Canada

February 1, 2010

*Mr. Rod Bantle, Senior Vice President, Truck Transportation of Gibson Energy ULC, is pleased to announce that, effective February 1st, 2010, Gibson Energy, through its wholly owned subsidiary, Bridge Creek Trucking, **acquired ownership of Johnstone Tank Trucking Ltd.** (the continuing entity resulting from the recent amalgamation of Johnstone Tank Trucking Ltd. and Johnstone Oilfield Services Ltd.)*

Johnstone, based in Frobisher, Saskatchewan, primarily transports crude oil and operates a strong well service business out of Southeastern Saskatchewan and Manitoba with over 50 units in these areas. Johnstone has recently added a new office and shop complex to their base in Frobisher and have additional facilities and trucks in Estevan, as well as trucks based out of Arcola, Saskatchewan.

This is a strategic acquisition for Gibson as Johnstone Tank Trucking is located in the fast developing Bakken zone of Southeastern Saskatchewan. Gibson's growth will be enhanced in this area for our Trucking, Marketing and Propane Marketing/Distribution businesses as well as through our Deepwell investment via the Palko facility located near Griffin, Saskatchewan.

Gibson is a growth-oriented, profitable North American midstream oil and gas company with a balanced portfolio of businesses.
