

**PRESS RELEASE – GIBSON ENERGY ULC**  
**FINANCING AND STRATEGIC RELATIONSHIP WITH**  
**DEEPWELL ENERGY TRUST**

**August 17, 2009**

*Mr. A. S. (Stew) Hanlon, President and C.E.O. of Gibson Energy ULC*, is pleased to announce that effective August 17<sup>th</sup>, 2009 Gibson Energy has agreed to participate in a proposed CAD \$7.0 million financing and strategic relationship with Deepwell Energy Services Trust that includes a private placement of a minimum of CAD \$4.20 million by Gibson.

Deepwell, located in Calgary, owns and operates three full service waste management facilities in Alberta – Claresholm, Mayerthorpe and Grande Cache and one waste water disposal facility in Rycroft. Deepwell also owns a 50 percent interest in a facility that is currently expanding into a full service waste management facility in the growing Bakken play in Saskatchewan.

The strategic relationship with Deepwell will enable Gibson to optimize crude oil marketing opportunities with Deepwell's facilities, capitalize on Gibson's trucking fleet to move additional volumes of oil and water and increase Gibson's presence in the Bakken play region.

Additional information about the transaction and corporate strategy can be found at <http://www.deepwellenergy.com/>.

---

*Gibson Energy is a progressive Alberta-based company providing integrated oil and gas transportation, terminal and marketing services.*
