PRESS RELEASE

FROG LAKE FIRST NATION ANNOUNCES NEW BUSINESS VENTURES

The Frog Lake First Nation is proud to announce the establishment of its own construction company, the Frog Lake Construction LLP. The Company will be co-owned by Brad Cabay of Bonnyville. Mr. Cabay will also be the General Manager.

Chief Clifford Stanley stated that "our Company's mandate is to deliver its oilfield construction services in a safe, reliable and competitive basis". He added: "We urge industry, operating on our traditional lands, to provide our Company with the opportunity to provide our services, while serving our Community's needs. Our priority 1 is to train, employ and assist our small businesses through sub-contracts".

Industry operating in the Frog Lake traditional territory are urged to call Mr. Brad Cabay and discuss their construction services needs. Mr. Cabay can be reached at (780) 826-8696.

The First Nation also just concluded an agreement with Gibson Energy's Trucking Division. Gibson Energy's Trucking Division will equally co-own 8 crude trailers with FLFN and will contract owner-operators from the Frog Lake First Nation to provide towing services, which reflects the desire of FLFN Members to work in the trucking industry.

"Currently there are 8 FLFN Members hired to haul crude oil and the fleet can expand as Gibson and FLFN agree to it" said Gibson Energy ULC Senior Vice-President of Truck Transportation, Rod Bantle. This joint venture is already working well for FLFN, for Gibson and for the Membership of the Frog Lake First Nation" he continued.
